

# Bush Fire Support

## Fine fuel collection

Residents of **Scotland Island**

**Monday 16 January 2023 – Have your bags ready by 7am**

To help reduce the risk of bushfire and ember attacks, Council is organising a fine fuel collection.

Fine fuel includes leaves, twigs and bark that can easily catch fire and only these materials will be collected. **Fine fuels are less than the diameter of your little finger.**

Please note other vegetation will not be collected as part of the fine fuel collection.

### What to do you need to do?

1. Pick up a fine fuel bag supplied by Council (one bag ONLY per household) from **Monday 19 December 2022** from **your Rural Fire Brigade**.
2. Clear your roof and rake up all the fine fuel around your house and tip it into the fine fuel bag. **Only Council supplied bags will be collected.**
3. Place your filled bag on the **road reserve outside your property** for collection leaving a 3m gap in the road reserve or fire trail to allow for emergency access.

### Who can I ask for more information?

**Rural Fire Brigade:** Peter Lalor [captain@sirfb.org.au](mailto:captain@sirfb.org.au)

**Northern Beaches Council:** [wasteeducation@northernbeaches.nsw.gov.au](mailto:wasteeducation@northernbeaches.nsw.gov.au)
